💼 EXPERIENCES

Active Assurances (insurance)| FullStack Developer
MAY – SEPTEMBRE 2020 (4 MONTHS)

My main task was to provide a unique e-signature service for the different platforms dealing with clients' quotations and subscriptions.
Asp.Net core, gRPC, Angular

Infinite Square | Consultant FullStack, Project Lead
JULY 2013 – MARCH 2020 (7 YEARS)

Setting up web solutions in a consulting environment, often B2B.
Technical environment: C# Asp.Net core MVC, Angular & cross-platform mobile app in Cordova. My role was developer and a project lead (small team management, 3~4 people).

Some significant missions:

Microsoft & Faurecia (automotive industry) | 2 months: As a developer, participating to the creation of a VPA (Virtual Private Assistant) for a connected car cockpit, and a real connected car, using Speech recognition. This solution was meant to be a demo for the CES 2020 event in Las Vegas USA.
C#, Asp.Net core, Azure cognitive services (STT, TTS, Luis), Docker

LFP (Professional Soccer League) | 1Year and 6 months: As a developer and project lead, creation of 3 front apps made with Angular for the Clubs, Stadiums and Competitions management of the league. Consuming APIs with large scaling requirements.
C# Asp.Net Core, Micro services architecture, CQRS, Azure services bus and CosmosDb, Angular 4 to 6, GraphQL and ApolloJS.

Rothschild & co (International private bank) | 5 months: Reworking of the extranet for clients as one API, one MVC website and a Cordova application.
Asp.Net MVC, AngularJS and mobile app (Cordova)

Somatic | Internship
2012 - 4 MONTHS

Single Page Applications development (Asp.Net MVC4 & Knockout.js)
Windows 8 app development (c#, WinRT)

Miscellaneous | Internship
2MONTHS A YEAR BETWEEN 2010 AND 2012

PHP & ASP developments.

SKILLS

- .Net : c#, ASP.NET (core)
- Agile
- Git
- Microsoft Azure: service bus, storage.
- Unit tests & Integration tests (JS et C#)

- JavaScript / Typescript, Less / Sass
- Angular, React, redux, RxJS
- Vuejs, nuxt
- Web components
- Webpack

Basic knowledge:

- MS IoT services, Cognitive Service.
- Docker
- Firebase

- WebGL & BabylonJS
- NodeJS
- Flutter

ACHIEVEMENTS

3 Formations leaded about Cordova, participation to 2 white papers for Microsoft Days and one publication in the "Programmez" magazine about Cross-platform technologies.

EDUCATION

Master's degree (+ 5 years) | Supinfo international university
2009 – 2014
SUPINFO is a French International private school of IT, teaching very large disciplines program: Development (native, mobile, web …) as well as System & Network (cisco, Windows server… etc.) and law / management.
I have been able to be teacher (during my studies) for 3 courses (ASP.net, Windows phone, and C#) for the 3rd and 4th grades.

Baccalaureate
2009
Electronic branch.

INTERESTS

Computer assisted drawing, music (drums, bass), martials art. DIY/IoT

LANGUAGES

French – Native

English – Professional

Japanese – Daily Conversation (Actually studying JLPT N3 level)
